**Anti Tamper Seal**

Keepsafe's sophisticated tamper evident seal developed with decades of research and development protects against all forms of manipulation including: heat, freeze, solvent, mechanical and moisture.

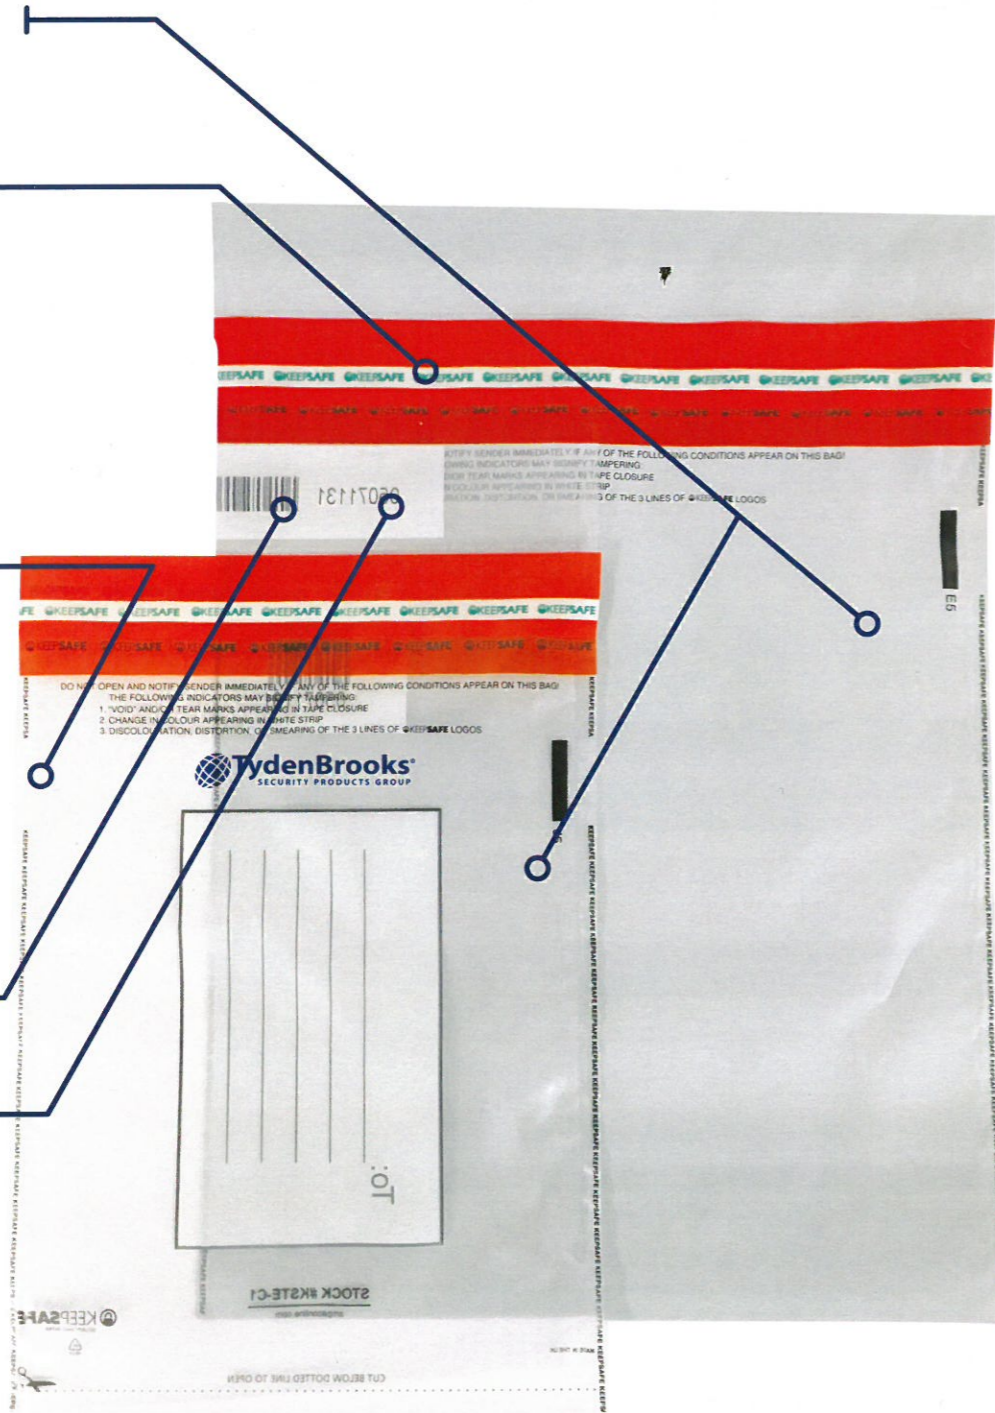

**Sturdy Construction**

Keepsafe's bags are constructed using the finest co-extruded plastic polymers. The bags we produce come in a range of thicknesses and can be welded along the sides to ensure maximum security.

**Unique Bar Code**

**Tear off Receipt**

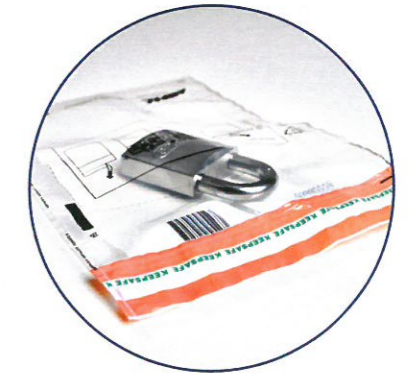

Tear off receipt with optional barcode. Adding a barcode to your security bags increases the security level, you can scan your cash, evidence or sensitive material on despatch and arrival to ensure safe passage.

**Evidence / Forensic Bags**

Keepsafe evidence bags feature our Ultra tamper-evident closure to prevent evidence from being compromised, and to support good chain-of-custody procedures. These bags are made from durable polyethylene film, and come pre-printed with all information required for proper evidence submission.

Keepsafe also offers breathable evidence bags specifically designed for collecting and securing wet evidence. These bags feature a breathable material on one side of the bag, which facilitates the drying of wet evidence, and guards against the loss of crucial evidence due to deterioration.

**Cash Bags**

KeepSafe® cash bags utilize the most advanced tamper-evident technology to provide the ultimate in security for high (Ultra/Gold), medium (Premium/Silver), and low (Secure/Bronze) risk applications. Keepsafe KeepSafe cash bags are designed for direct-to-branch, day/night, armoured carrier, and direct-to-vault deposits. Keepsafe offers a complete line of security packaging to fit any application and are available in single pouch, pouch with external pockets, vertical twin, and horizontal twin deposit bags.

KeepSafe® coin bags are the strongest and most efficient plastic coin bags on the market. Keepsafe's high-strength coextruded polyethylene film is specially designed for secure coin and cash applications.

**Secure Document Bags**

Keepsafe is globally recognized for excellence in the manufacturing of products utilized by government agencies for the collection, storage and transfer of sensitive documents and materials. Our secure document bags are fitted with the most advanced tamper-evident technology to provide the ultimate in security for high risk applications.
